

iPSC\_PD – Annotation Summary Across All References

| Timepoint | Cluster | nCells | ScTypeDB_Default              | Panglao                        |
|-----------|---------|--------|-------------------------------|--------------------------------|
| iPSC_PD   | 0       | 10141  | Glutamatergic neurons         | Neurons                        |
| iPSC_PD   | 1       | 9577   | Non myelinating Schwann cells | Anterior pituitary gland cells |
| iPSC_PD   | 2       | 5637   | Unknown                       | Schwann cells                  |
| iPSC_PD   | 3       | 4086   | Mature neurons                | Cajal–Retzius cells            |
| iPSC_PD   | 4       | 3990   | Dopaminergic neurons          | Dopaminergic neurons           |
| iPSC_PD   | 5       | 2257   | Radial glial cells            | Ependymal cells                |
| iPSC_PD   | 6       | 2163   | GABAergic neurons             | GABAergic neurons              |
| iPSC_PD   | 7       | 1950   | Glutamatergic neurons         | Unknown                        |
| iPSC_PD   | 8       | 865    | Astrocytes                    | Astrocytes                     |
| iPSC_PD   | 9       | 772    | Radial glial cells            | Neural stem/precursor cells    |
| iPSC_PD   | 10      | 163    | Cancer cells                  | Astrocytes                     |
