

iPSC PD: Refined Cell Type Annotations

Based on marker gene DotPlot analysis (Kriks et al. 2011 protocol context)

iPSC PD: Refined Annotations by Condition

Split by condition metadata

Control

Idiopathic_PD

- Cell Type
- Neural progenitors
 - Midbrain floor plate progenitors
 - Immature neurons (transitioning)
 - Immature midbrain neurons
 - Mature neurons (glutamatergic)
 - Mature glutamatergic neurons
 - Midbrain dopaminergic neurons
 - Off-target forebrain GABAergic neurons
 - Astrocytes
